

OUR SERVICES

At The Friends of the Aviary, we are dedicated to finding the best forever home for each bird in our program.

We aim to provide well-rounded care, including proper nutrition, positive reinforcement training, and socialization to all birds that we accept.

ABOUT US

The Friends of the Aviary is almost 100 years old. As times have changed we have evolved as well.

For many years we had a vibrant aviary located at Dundurn castle and then in Westdale. With the loss of a physical building, we have pivoted to become a network of foster homes.

THE FRIENDS OF THE AVIARY

Working with parrots since 1927!

OUR GOAL

To help the growing need of people looking to rehome their parrots in our community we developed Surrender, Foster, and Adoption programs!

When we take on a bird we assess their physical, mental, and social needs, improve their diet, and teach them transferable skills like “stepping up” to increase their chances for a successful adoption.

Currently our program is small, but after just a year of operation, we have been asked to take over 300 birds that needed to leave their old home.

Some were well loved by sick or deceased family members, some were found outside, some were not taken proper care of and have health and behavioural issues, but all of them deserve a safe forever home.

In order to take in birds that need help, we need foster homes for them to go to!

WE NEED YOUR HELP!

We are looking for people who have birds willing to open their homes to another, people interested in having a bird but aren't quite ready to do so on their own, people wanting to foster to adopt, and people with no experience at all, but a willingness to learn!

DONATE
